SPANISH CAMPAIGN PETITION

To the President of Spain, Jose Maria Aznar Lopez, King of Spain, Juan Carlos de Borbon y Borbon, Queen Sofia, US Embassies and all involved individuals:

We, the citizens of the United States, demand an end to the horrific torture perpetrated on defenselss greyhound dogs in many provinces in Spain. The Spanish Embassy officials in some cities in the US claimed to have no knowlege of these atrocities prior to the information presented to them by STDG!

Unless the situation is brought to an immediate end, our support of Spanish goods, services and travel will cease. In order to avoid financial hardships to innocent individuals and companies in Spain (as dogs suffer), we expect action, not apologies and explanations.
